## Objective

To develop creative solutions with a passionate team of engineers and designers in order to shape impactful experiences of tomorrow.

## Experience

- **Graphic Design Intern | Decca Design** Feb 2021– April 2021  
Support Associate Creative Directors and Art Director as requested.  
Perform image searches, create layouts, make edits and revisions to existing client assets, and prepare concepts for client presentations.
- **Design Technologist | Independent Contractor** Jan 2019 – present  
**www.cineo.la** – A platform for Latin American short films.  
Lead Front-end developer. Collaborated with designers to ensure a sound and efficient user interface.  
Responsible for the website's development and deployment including but not limited to a responsive landing page using HTML, CSS, and JavaScript.  
**www.andgtz.com** – Photography portfolio for Andrea Gutierrez.  
Communicated directly with client to establish project parameters, wrote proposals for design work, analyzed competitor sites, determined content, and communicated progress regularly.  
Incorporated a complete CMS, custom UI components, media queries for mobile responsiveness, and handled domain registration and web hosting.
- **Risk Analyst | Stripe via Accenture** Jun 2019 – Jun 2020  
Review information provided by client's business partners to confirm accuracy and compliance with client ToS, policies and procedures.  
Identifying fraudulent activity to mitigate potential risk and preventing fines from financial partners.
- **Collections Analyst | Airbnb via BCForward** Jan 2018 – Jun 2019  
Created and maintained an internal wiki for admin processes, projects, and workflows.  
Maintained the dashboard, tracked metrics and progress against established monthly targets.
